First Name,

Schools, districts, and colleges are busy making plans for what instruction will look like in the Fall. When school buildings and campuses reopen, the health and safety of students and educators must be a top priority.

What rights do you have as an educator when schools return to in-person instruction? How can you advocate for your health and safety and that of your students, whether or not you bargain collectively?

Join us for an informative webinar about returning to in-person instruction with NEA's Office of General Counsel and Collective Bargaining and Member Advocacy teams.
